

DOUBLE TELEPHONE SWITCH

Reference standards

CEI 20-20

Cable description

Cables for telephone equipment connections, transmission and patching in telephone exchanges

Conductor

Made of annealed red copper with rigid round cord - approximate conductor diameter 0.60 mm

Core isolation

Polyvinyl chloride (PVC)

Core colour

Red / White

Sheath

Unsheathed cable

Technical specifications

Nominal cross-section: 2 x 0.30 mmq

Test voltage: 1000 V a.c.

Maximum operating temperature: 80° C

Minimum operating temperature: -10° C

Installation conditions

Fixed

Packaging

- Coils 100/250/500 metres
- Cardboard/plastic reels
